POLICRETE[®]

POLICRETE®

Style of living

POLICRETE is the most advanced system for the construction of your floors and walls in your house, apartment or office. Its styles and colors are unique. Its molecular structure close to the "LIQUID PORCELAIN" makes it more flexible and versatile for architects, builders, interior designers and owners of homes and businesses.

POLICRETE can be applied over any existing surface such as: ceramics, porcelain, micro cement, polished concrete and vinyl. It does not require demolition or permits from the city and its application does not generate dust.

Our professional team with more than 15 year of experience in the design, installation, restoration and maintenance of your floors and walls is the best guarantee for your project.

We are concerned about the environment. WE USE RECYCLED MATERIALS AND WATER BASE PRODUCTS.

We serve all USA.

BUT WHAT IS POLICRETE?

Policrete is a resin system that looks like concrete or polished concrete but without the inconveniences such as cracking, dust, stain and scratches.

All Policrete Systems are composed of three essential layers:

- ✓ Anti-Cracking Membrane
- ✓ Decorative Coating
- ✓ Protective Sealers

POLICRETE®

POLICRETE

POLICRETE[®]

WHAT STYLE DO WE HAVE?

POLICRETE is a versatile decorative product that could give a monochromatic effect as well as a marbleize effect.

POLICRETE®

IS THAT IT? NO...

POLICRETE is much more than that...
It can be applied over floors, walls,
countertops and furniture.
